

NUEVAS TECNOLOGIAS DE SOLDADURA S.L (Newtesol) participates in the AWS Welding Show (Chicago, 2009)

Nuevas Tecnologías de Soldadura S.L (Newtesol) will participate as lecturer in the FABTECH International & AWS Welding Show that will take place in Chicago (Illinois, USA) from the 15th to the 18th of November 2009.

The conference given by Newtesol, “Construction and weld overlay of pipelines for the petrochemical industry”, will take place on the 17th of November 2009 at 08:00 during session 6 titled “Industrial Technology”.

This conference prepared y Roberto Sáiz Juárez (Technical Consultant) and Borja Sáiz Sánchez (General Manager) will be presented by the aforementioned General Manager and will be about Newtesol’s experience in the manufacture and pipeline weld overlay for the petrochemical industry.

Newtesol will be the single Spanish company participating in the conferences of this AWS Welding Show edition and one of the two European ones that will present their projects and experiences in the welding environment.

The FABTECH International & AWS Welding Show is the most important event of the welding industry in the United States.
